## ABOUT ME

As a Graduate Computer Engineer From Sinhgad Institute Of Technology & Science, Narhe, Pune. I am highly passionate about learning and gaining corporate experience to apply academic knowledge and refine skill into expertise. A proactive and mature individual, ready to transition seamlessly from education to professional employment

## EDUCATION

|                                                                                     |           |
|-------------------------------------------------------------------------------------|-----------|
| <b>SINHGAD INSTITUTES</b><br>Bachelor Of Engineering in Computer [ CGPA : 8.28/10 ] | 2021-2025 |
| <b>MSBSHSE</b><br>HSC (XII) [ Percentage : 92/100 ]                                 | 2021      |
| <b>MSBSHSE</b><br>SSC (X) [ Percentage : 91/100 ]                                   | 2019      |

## PROJECTS

### Car Price Prediction System 2025

Developed a predictive model to estimate car selling prices using features like brand, year, fuel type, transmission, mileage, and engine power. Performed EDA, preprocessing (scaling & encoding), and trained a Linear Regression model using Pipeline. Evaluated performance using MAE, MSE, RMSE, and R<sup>2</sup> Score, and visualized predicted vs actual prices to demonstrate model accuracy.

### Student Management System 2024

Developed a Student Management System using HTML, CSS, Python, and MySQL, designed to efficiently handle student data and academic records. The system enables seamless record management, performance tracking, and smooth interaction between users and the database. It features a user-friendly interface, secure data handling, and simplified workflows for administrators and students alike.

### Employee Data Analysis 2025

Cleaned and transformed HR attrition dataset to ensure consistency and accuracy for analysis. Developed an interactive Power BI dashboard using cards, bar/line graphs, pie charts, slicers, and tables to visualize key employee trends

## SKILLS

- Programming language: Python
- Machine Learning
- MySQL
- Data Analytics Tool : PowerBi
- OOPS
- LLM

## CERTIFICATION

- Data Science
